

1

00:00:05,720 --> 00:00:08,920

Today we're going to learn how  
to play INSTANT SCRATCH GAMES.

2

00:00:08,920 --> 00:00:12,840

There are several different scratch games to  
choose from and there are three basic things

3

00:00:12,840 --> 00:00:18,880

to consider when choosing which game to play.

They are price, game style and prize amount.

4

00:00:18,880 --> 00:00:22,640

If you're choosing your game  
based on price...some could cost \$2,

5

00:00:22,640 --> 00:00:27,400

some could cost \$50. Prices can always

be found in the top corner...here.

6

00:00:28,440 --> 00:00:33,120

Or you can choose by game play style.

There are two styles of play...One is

7

00:00:33,120 --> 00:00:39,280

called 'Quick play'. This style keeps it easy with a single scratch area to play.

8

00:00:39,280 --> 00:00:43,760

The second is called 'Extended play'. These are games with multiple scratch areas like

9

00:00:43,760 --> 00:00:48,000

'Instant Bingo' or 'Instant Crossword'.

Or you can choose by prize amount.

10

00:00:48,000 --> 00:00:51,720

Some games have a top prize worth millions of dollars and some offer

11

00:00:51,720 --> 00:00:56,320

smaller prizes with better chances of winning.

Now all that's left to do is scratch the Play

12

00:00:56,320 --> 00:01:00,920

area, then double check your ticket at  
an OLG retailer or use the OLG Lottery

13

00:01:00,920 --> 00:01:04,920

app to see if you are a winner. And  
always be sure to sign your ticket.

14

00:01:04,920 --> 00:01:08,680

For prizes of under a thousand dollars,  
take your ticket to your OLG retailer to

15

00:01:08,680 --> 00:01:13,040

get it verified at the terminal. And don't  
wait too long to claim your prize either!

16

00:01:13,040 --> 00:01:16,840

Oh, and one more thing...very, very  
important...tickets are distributed randomly to

17

00:01:16,840 --> 00:01:21,760

all retailers. No stores are luckier than others  
and buying more tickets does not change the odds

18

00:01:21,760 --> 00:01:29,840

of any ticket winning. That's it.  
Now we're ready to play smart!
