

1

00:00:04,840 --> 00:00:07,360

Slot machines have come a long way. Gone are the

2

00:00:07,360 --> 00:00:11,160

early days where there were only  
a few different ways to win.

3

00:00:11,160 --> 00:00:14,960

Today, there are so many  
more symbols and ways to win.

4

00:00:14,960 --> 00:00:19,440

The question that is most often asked? is  
“How does winning work on a slot machine?”

5

00:00:19,440 --> 00:00:21,480

There are lots of different ways to win and it's

6

00:00:21,480 --> 00:00:26,120

all about hitting a specific combination  
of symbols along one of the "paylines".

7

00:00:26,120 --> 00:00:29,600

You can win by matching symbols horizontally...

8

00:00:29,600 --> 00:00:34,280

Diagonally...

And even in a zig zag...

9

00:00:34,280 --> 00:00:38,280

You can play just one "payline" or as  
many individual lines as you want. The

10

00:00:38,280 --> 00:00:44,600

more lines you play, the more chances you have to win...but remember playing more lines costs more.

11

00:00:44,600 --> 00:00:48,160

Ready to learn how to bet?

Good. Ok, so, there are three parts

12

00:00:48,160 --> 00:00:52,880

to every bet... the 'denomination',  
the credit, and the "payline"

13

00:00:52,880 --> 00:00:56,320

The 'denomination' is the value  
that each credit is worth. You

14

00:00:56,320 --> 00:00:58,920

can play a single "payline" on a single credit.

15

00:00:58,920 --> 00:01:02,400

Or play a single "payline" on multiple credits.

16

00:01:02,400 --> 00:01:06,400

You can even play multiple  
“paylines” on multiple credits.

17

00:01:06,400 --> 00:01:10,880

Depending on your choice of bet,  
the cost of each spin can change.

18

00:01:10,880 --> 00:01:15,680

If your ‘denomination’ is 5-cents  
and you bet one credit on 30 lines,

19

00:01:15,680 --> 00:01:21,240

your spin will cost \$1.50. That means, even  
though you are playing a nickel machine,

20

00:01:21,240 --> 00:01:25,520

your bet would cost 30 times that.  
That’s why it’s important to always

21

00:01:25,520 --> 00:01:29,840

look to see the amount you're playing  
for and how much each bet costs.

22

00:01:30,800 --> 00:01:40,080

Now you are ready to go have some  
fun and remember to play smart.
