‘Get Your Game On’ - SLOTS

### Voiceover:

*Today we’re going to learn how to play Slots.  
Slot machines have come a long way.  
Gone are the early days where there were only a few different ways to win.  
Today, there are so many more symbols and ways to win.  
The question I’m most often asked is ‘how winning works on a slot machine?’  
There are lots of different ways to win and it’s all about hitting a specific pattern of symbols along one of the “paylines”.*

### Text on screen:

PlaySmart TIP: Paylines are the paths you can match symbols on to win.

### Voiceover:

*You can win by matching symbols horizontally...  
Diagonally...  
And even in a zig zag...  
You can play just one “payline” or as many individual lines as you want. The more lines you play, the more chances you have to win...but remember playing more lines costs more.*

### Text on screen:

PlaySmart Tip: The more paylines you play, the more it costs.

### Voiceover:

*Ready to learn how to bet?  
Good. Ok, so, there are three parts to every bet... the ‘denomination’, the credit, and the “payline”.  
The ‘denomination’ is the value that each credit is worth. You can play single credit on a single “payline”.  
Or play multiple credits, on a single “payline”.  
You can even play multiple credits, on multiple “paylines”.*

### Text on screen:

PlaySmart TIP: The more credits and paylines selected, the higher the cost of play.

**Voiceover:**

*Depending on your choice of bet, the cost of each spin can change. So, if your 'denomination' is 5-cents and you bet one credit on 30 lines, your spin will cost \$1.50. That means, even though you are playing a nickel machine, your bet would cost 30 times that. That's why it's important to always look to see the amount you're playing for and how much each bet costs.*

**Text on screen:**

PlaySmart Tip: Pay attention to how much each bet costs after choosing your betting options.

**Voiceover:**

*Make sense? Alright, let's go have some fun and remember to play smart.*
